

Name: _____

A Change Will Do You Good

Background: There are _____ clues that a chemical reaction may have taken place when more than 1 substance is combined.

These **clues** are: _____

Observations: Complete the following chart as you perform each experiment

	Substances Used	Observations	Physical Change	Chemical Change
1	Teacher demo			
2	copper sulfate + calcium chloride			
3	sodium carbonate + acetic acid			
4	water + sodium hydroxide + phenol			
5	salt + water			
6	vinegar + BTB			
7	Iron nitrate + sodium hydroxide			
8	iron nail + copper sulfate			
9	ice cube + heat
