

Ethical Issues in Molecular Genetics

Issue	4 Key Questions		
<p style="text-align: center;">Stem Cell Research</p> 	1	What is an ethical question to be considered?	
	2	What are some relevant facts?	
	3	Who or what could be affected by the resolution?	
<p style="text-align: center;">Human Cloning</p> 	1	What is the ethical question to be considered?	
	2	What are the relevant facts?	
	3	Who or what could be affected by the resolution?	
<p style="text-align: center;">Gene Patenting</p> 	1	What is the ethical question to be considered?	
	2	What are the relevant facts?	
	3	Who or what could be affected by the resolution?	

<p style="text-align: center;">DNA Fingerprinting</p> 	1	What is the ethical question to be considered?
	2	What are the relevant facts?
	3	Who or what could be affected by the resolution?
<p style="text-align: center;">Genetically Modified Organisms (GMOs)</p> 	1	What is the ethical question to be considered?
	2	What are the relevant facts?
	3	Who or what could be affected by the resolution?
<p style="text-align: center;">DNA Privacy</p> 	1	What is the ethical question to be considered?
	2	What are the relevant facts?
	3	Who or what could be affected by the resolution?
