

Formula Fish

1. Deal out 6 cards to each player. Place remaining cards face down in a pile (pick up pile)
2. On a turn a player tries to make an ionic compound with the cards in their hand.
 - a. Put cards down face up in front of them.
 - b. One point for naming the compound correctly
 - c. One point for saying/writing the correct formula
 - d. Pick up 2 cards to replace cards put down
3. If a compound cannot be made player discards one card face down in the discard pile & picks up another from the pick up pile.
