

Cell Organelle Trading Cards

The **IntelloCell Research Institute**[®] has approached the **Lorescience Trading Card Company**[©] to produce **Cell Organelle Trading Cards**[™]. **IntelloCell Research Institute**[®] expects these trading cards to be *hot* sellers during the upcoming holiday season since interest in cells has skyrocketed among 10th grade students. You will design a “trading card” for 4 of the cell organelles from your organelle note. Each trading card will be part of a complete cell when all cards are collected, creating cellular excitement for young and old!

The trading card will feature an actual picture of the organelle taken through a microscope on the top & information below.

You will use the website www.bighugelabs.com/deck.php to make your cards.

1. Upload image you have found & saved in the photo library
2. Information must include:
 - **Title** = name organelle
 - **Sub-title** = analogy
 - **Description:**
 - what type of cell(s) is it found
 - key function (in your own words)
 - 2 additional pieces of **researched** information (in your own words)
 - Add icons if you wish (you can explain why selected when submitting card)
3. Click **Create**
4. Click **Download**
5. Screenshot image & submit in Edsby via message
 - In text section of message include reference links for the image & the 2 pieces of researched information.
 - Include reasoning for icons if you added them
6. Repeat for next 3 organelles
