Plant Tissues

loreescience meristem

Meristematic cells:

3 Types of Plant Tissues:

Dermal Tissue:

Peridermal tissue:

Epidermal tissue:

Vascular Tissue:

Xylem:

Phloem

Ground Tissue:

Palisade layer:

Spongy mesophyll:

Plant Systems

2 Main systems:

-

_

Root:

Functions

Growth

Shoot:

General functions

Stem functions

Leaf functions

WATER + LIGHT = CHEMICAL ENERGY

2. Water enters leaf

1. Chloroplast is traplight energy

3. Carbon dioxide
enters leaf through stomata

Flower function
